

Hydroline[®] Plus

WATERBASED WOOD FLOOR FINISH

Hydroline[®] Plus provides beauty and durability in a low VOC formula. This clear, non-yellowing finish with improved slip resistance is ideal for applications where traction is important—especially stairs and landings. Perfect for residential, commercial and sports floor projects.

Hydroline® Plus is the exclusive,

high clarity formula that is the professional's solution to strict VOC regulations. With less than 275 VOC, Hydroline Plus delivers compliance without sacrificing the performance that you expect from a premium waterbased finish. The outstanding flow and leveling, as well as the crystal clear appearance of Hydroline Plus, make it a new standard in wood floor finish.

"Hydroline Plus has film build, lack of foaming and excellent traction which is what we've looked for in a product all along. Hydroline Plus eliminates many of the issues we've had with other finishes over the years."
