| Clean Up..... | Water |
| Storage..... | Do not store above 120°F (49°C) |
| Packaging..... | 1 U.S. quart container (12 quarts/case) |

RECOMMENDED APPLICATORS

- Application – Use Basic Coatings[®] Microfiber Mop

APPLICATION PROCEDURES

Step 1 (Clean): Vacuum or mop debris off the floor. Next, clean the floor with Squeaky™ Cleaner from Basic Coatings and a microfiber mop. This step may need to be repeated to thoroughly clean the floor. If there is heavier build up of dirt and debris that cannot be removed by just Squeaky™, you should clean first with IFT - Intensive Floor Treatment, and then do a follow up cleaning with Squeaky™. Allow the floor to dry.

Step 2 (Apply): Rock product several times to mix contents. Squirt Basic Coatings[®] Hardwood Floor Refinisher on to the floor and spread evenly across the floor with a clean microfiber pad. Work in small sections and smooth the product out in the direction of the wood grain.

Step 3 (Dry): Allow to dry for a minimum of 1 hour before walking on the floor. Wait 24 hours before heavy traffic and furniture replacement. A second coat may be applied after 2 hours.

DAILY MAINTENANCE

Do not use any liquid cleaners other than water for the first 2 weeks. Use Basic Coatings' Squeaky™ Cleaner as directed for routine cleaning and maintenance once the 2-week window has passed. See Basic Coatings maintenance brochures for additional instructions.

TIPS FOR SUCCESS

- Do not use on floors that have been previously oiled or waxed. Always test in a small area to ensure adhesion.
- Coat the entire floor or room to ensure an even appearance. This product's gloss range may be different than the current gloss level of your flooring.

PRECAUTIONS

CAUTION! EYE IRRITANT.

CONTAINS: N-methyl-2-pyrrolidone. Avoid eye and skin contact. Use in a well ventilated area. Wash with soap and water after handling. Do not take internally. Keep container closed.

FIRST AID: EYE CONTACT: Flush with water for at least 15 minutes. Contact your physician. SKIN CONTACT: Wash with soap and water. INHALATION: Move affected person to fresh air. INGESTION: Contact the Poison Control Center or your physician immediately. Do NOT induce vomiting. WARNING: This product contains a chemical known to the state of California to cause birth defects or other reproductive harm.

KEEP OUT OF REACH OF CHILDREN. FOR INDUSTRY USE.
