ONLINE TRAINING MODULES

STEP 1

Go to basiccoatings.com/training or scan the QR code for the online courses.

STEP 2

Complete the online training modules.

STEP 3

Complete your hands-on demo with a Basic Coatings® Regional Manager.

STEP 4

Become a Basic Coatings Certified Contractor and get your name and email on our website.

Wood Floor Cleaning and Maintenance

- Designed for the carpet cleaning / restoration professional.
- Introductory course to learn proper wood floor maintenance procedures. Upon completion of this course a contractor should feel comfortable using the cleaning equipment and applying a maintenance urethane coat.

TyKote® Dust-Free System

- Designed for the industry professional who is competent working on wood floors.
- An intermediate course for the wood floor professional who would like to use a dust-free method to add a high end coating to the floor. Module will include coating options and application techniques.

Wood Floor Craftsman

- Designed for an advanced wood floor professional who has the skills and equipment necessary to properly sand and prepare the wood floor for coating.
- An advanced class for the wood flooring professional who would like to build his knowledge of professional waterbased coatings, application techniques and equipment that is available.

Sport Floor Program

- Designed for a sport flooring professional who can properly sand, coat and layout a gym floor.
- An advanced course outlining the different coating options and advantages of oil-based vs. waterbased. Covers techniques and cost benefits.
